Protectapeel Boothstrip

What is Boothstrip?

- A white, peelable protective coating that protects against paint overspray & contamination.
- It can be used on walls, floors and working surfaces within a spraybooth.
- It's white, highly reflective finish gives better working conditions.

It can save you..

- **Time** - It's Quick and easy to apply by spray or roller and can be either overcoated or simply peeled back when required.
- **Money** - No need for specialist contractors as Protectapeel Boothstrip can be applied by your own, in-house team.
- **Impact on the Environment** - Protectapeel Boothstrip is an environmentally friendly, water based product and can be returned to Spraylat for recycling or disposed of as domestic waste.
